

Plant epigenetics at the botanical garden

WHEN

September 14th, 2018

9:00 – 12:45

WHERE

Orto botanico

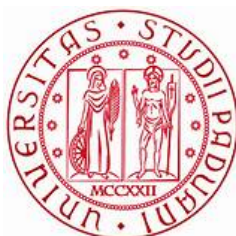

Aula Emiciclo, Via Orto Botanico 15 - Padova

WEB ADDRESS

www.epigen.it/plant-epigenetics-botanical-garden-september-14-2018

REGISTRATION – FREE OF CHARGE

www.epigen.it

SPEAKERS

SARA FARRONA

National University of Galway, Ireland

Novel components of the Polycomb Group pathway and their roles during plant development

ANDREA ZUCCOLO

Scuola Normale Superiore Sant'Anna, Pisa, Italy

The role of methylation in the interplay between Low Levels of Unequal Recombination and High Rates of Intraelement Gene Conversion affecting LTR retrotransposons in Large Plant Genomes

STEFANIE ROSA

Swedish University of Agricultural Science, Sweden

Sense/Antisense transcription coordination at the single locus level [Preliminary]

CRISTIAN FORESTAN

University of Padova, Italy

Dissecting the transcriptional and epigenetic regulation of stress response and memory in maize

HOST

SERENA VAROTTO

University of Padova
